Review Topics

1.1
- Real Numbers
- Properties of Addition and Multiplication
- Unit Analysis
- Unit Conversion

1.2
- Order of Operations
- Evaluating Powers/Expressions and Simplifying Expressions

1.3
- Solving single and multi-step equations
- Solving for a variable in a formula

1.4
- Finding values of the equation/formula with a given value

1.5
- Using formulas / Looking for patterns / Drawing a Diagram
- Number Line Inequality Graphs

1.6
- Creating and READING number lines
- Compound Inequalities
- Multiply / Divide by Negatives in Inequalities
- Solving Inequalities

1.7
- Absolute Value as Distance
- Solving simple Abs Equations
- Extraneous Solutions
- Absolute Value Inequalities
